PARKS AND RECREATION REPORT 2024-02

TO: Mayor Mackey and Members of Council
 FROM: Matt Tanner, Parks and Recreation Facilities Coordinator
 RE: Desboro Community Centre Alternative Use
 DATE: February 21, 2024

RECOMMENDATION:

THAT Parks and Recreation Report 2024-02 be hereby received for information; and
 FURTHER THAT council directs staff to begin a capital grant application under the Ontario Trillium Foundation for the projects associated with the Desboro Community Centre or alternative.

BACKGROUND:

As per council's request, staff were requested to bring forth more information regarding the Desboro Community Centre and its financial obligations to Township of Chatsworth residents.

Attached are financial figures pertaining to the yearly operational costs for the Desboro Community Centre. Years provided include artificial ice operations and, most currently, non-ice operations. On average, the facility costs the township of Chatsworth ratepayers 1% (one percent) a year of the operational budget. Historically, the Desboro Community Centre accounts for 15% of the annual capital budget.

Annual revenue generated by the Desboro Community Centre has increased yearly since 2021.

Year	Amount	Increase
2018	61,055.26	
2019	108,801.89	78% Increase
2020	65,282.35	39% Decrease
2021	740.00	98% Decrease
2022	6,522.14	781% Increase
2023	9,522.50	46% Increase

Annual Expenses generated by the Desboro Community Centre have risen and fallen since 2018.

Year	Amount	Increase or Decrease
2018	110,385.20	
2019	215,563.61	95% Increase
2020	187,461.14	13% Increase
2021	84,376.25	54% Increase
2022	84,278.56	.11% Decrease
2023	98,530.92	17% Increase

The Desboro Community Centre, like most arenas in the province, operates at a deficit. Desboro Community Centre has run operational deficits since 2018 and will continue until an additional revenue source is created.

Year	Amount	% Change
2018	- 49,329.94	
2019	-106,761.72	116% Increase
2020	-122,178.79	14% Increase
2021	- 83,636.25	31.5% Decrease
2022	- 77,756.42	7% Decrease
2023	- 97,536.00	25% Increase

Capital repairs and associated costs are still necessary for the building to remain in an acceptable state to remain as a community-use facility. As stated in the 2018 Building Condition assessment, initial capital repairs required totalled \$ 2,422,950.00. The arena refrigeration system was separate from the B.C.A. scope of work.

For turf operation or any other non-ice related facility operation, \$961,950 would be required to complete all necessary B.C.A work.

For modular turf operations, capital upgrades would increase by \$200,000 for the purchase of the modular turf. The acquisition would increase the total capital project costs to 1,161,950. Over ten years, \$116,195 would need to be allocated annually to the Desboro Community Centre to ensure the maximum lifespan of the asset.

For modular turf operations, 2025 capital contributions the amount estimated was \$360,000. This amount would include purchasing the modular turf (180,000-200,000 EST) and additional heating requirements (160,000 B.C.A. EST) required to ensure the space is suitable for winter use.

In addition to the capital costs, operational costs would increase by an estimated \$129,821 – 183,051. This increase would be offset by revenue generated by the modular turf space rentals. Revenue could range from 111,000-361,000 annually. With increased revenue, the facility could see its operational budget become cost-neutral, offsetting all costs to township residents and remain operational solely on floor revenue.

Start-up capital cost can be reduced significantly if a successful grant application(s) were made for certain large expenditures. This would include the modular turf surface or the required heating upgrades for the facility. The heating upgrades can be packaged with other community facilities to ensure optimal grant use.

Township of Chatsworth Comprehensive Zoning By-law (Draft 2)

Adopted 2024

TABLE OF CONTENTS

Index to be inserted

PREAMBLE

This section explains the purpose of this Zoning By-law and how it should be used. The preamble does not form part of the Zoning By-law and is intended to make the By-law more understandable.

Purpose of the Zoning By-law

The purpose of the Zoning By-law is to implement the policies of the County of Grey Official Plan and the requirements of the Provincial Policy Statement (PPS). The Official Plan contains general policies that guide the use of land throughout the County, including the Township of Chatsworth. These policies specify where certain land uses are permitted and what conditions the permission may be reliant upon.

The Official Plan is a general document that identifies a vision, desired outcomes, features that are to be protected, and procedures that are to be adhered to when an application under the Planning Act is triggered. The Official Plan does not regulate every aspect of the built form. The Zoning By-law is a regulatory document that applies to all aspects of the built form identified within the By-law. Any Zoning By-law passed by Council must conform to the Official Plan. For example, because the Official Plan states that development shall not occur in Hazard areas or Provincially Significant Wetlands, the Zoning By-law must prohibit development within these areas.

A portion of the Township is located within the Niagara Escarpment Plan Area. The Municipality's Zoning By-law does not possess regulatory authority within the Development Control Area of the Niagara Escarpment Commission (NEC). Areas subject to NEC Development Control are identified in the zone schedules (maps) of this By-law. All development within the NEC Development Control Area requires a permit or exemption from the NEC. Any inquiries regarding development requirements on lands that are subject to Niagara Escarpment Development Control should be directed to the NEC at:

Niagara Escarpment Commission

How to Use this By-law

The steps listed below should be followed to determine what uses are permitted on a property.

Locate the Property on a Map

Maps in a Zoning By-law are called Schedules. The first step to using this By-law is to refer to the Zone Schedules that are contained at the back of the By-law to determine which Zone(s) your property is located within.

The Zone is indicated on the Schedules by a symbol or abbreviation. For example, you may see a symbol such as A1 that applies to your property. This symbol indicates that your property is

within the Agricultural Zone. The Zone Symbols or abbreviations are identified in Section 6.5 (Establishment of Zones) of the By-law.

An indication from this By-law that a given use is permitted on a lot does **not** mean that you do not need to confirm compliance with other relevant by-laws and/or legislation. For example, while this By-law may permit a certain use, you may be required to enter into a Site Plan Agreement prior to obtaining a building permit. Permits may also be required from the relevant Conservation Authority if the lands are within a regulated area, or from the Ministry of Transportation if the property is within the controlled area along Highway 6 or 10 or its intersecting concession roads.

For information about what requirements may exist for your property, please contact the Planning Department at planning@chatsworth.ca

By-law Amendments, Minor Variances and Exceptions

A Zoning By-law is not a static document; it is amended over time as demands and policies governing land use change. By-laws are commonly amended to change the zone to provide for a specific use or to prohibit a certain use. In some cases, special provisions are applied to a property that vary the zone provisions for that property. Where applicable, these special, site-specific provisions are identified with a number or an h holding symbol. The corresponding provisions are detailed in Section 29.

Permitted Uses and Zone Standards

The next step to using this By-law is to determine what uses are permitted on your property. Sections 8 through 28 of the By-law identifies the permitted uses for each Zone. The definitions in Section 5 can assist you if you are not sure of the nature of a use or how it has been defined in the By-law.

Uses that are not identified as permitted uses within a particular Zone are not permitted in that specific Zone.

The next step is to determine what Zone standards may apply to the uses on your property. Each Zone identifies standards including minimum lot area, minimum lot frontage, minimum yard setbacks, maximum permitted heights of buildings, etc.

General Provisions

Once you are aware of the uses permitted on your property and the specific Zone standards that apply to those uses, refer to Section 7 (General Provisions and Prohibited Uses) of this By-law. This section contains a generic set of standards that must be reviewed for applicability to any use in any Zone. Parking standards are included in this section.
